

# TRASAR<sup>®</sup> WT-2000

CLOSED SYSTEM CORROSION INHIBITOR.

## **Benefits**

On-line dosage control and fast, accurate field test analysis using TRASAR technology.  
Can be used in closed cooling and heating systems.  
Provides ferrous metal, copper and aluminum corrosion protection.  
Contains an indicating dye which makes leak detection possible.  
Can be used in uninhibited glycol antifreezes.

## **Uses**

TRASAR WT-2000 is designed for use as treatment in closed system containing steel, copper alloys and aluminum parts and requiring a relatively low conductivity.

## **Description**

TRASAR WT-2000 is a balanced blend of nitrite, silicate, copper corrosion inhibitor, dispersants and TRASAR.

## **Dosage**

The required dosage of TRASAR WT-2000 will depend on water chemistry and site specific parameters.  
Your Nalco representative will recommend the optimum dosage necessary to ensure maximum program performance according to your specific system conditions.

## **Feeding**

TRASAR WT-2000 should be fed via a closed system.  
A closed system is defined as a system in which fluid is moved from a closed storage vessel into a treated media without exposure to the atmosphere except through normal venting or pressure relief devices.  
TRASAR WT-2000 must be fed where rapid mixing will occur and be distributed throughout the system.

## **Materials**

Storage and application equipment ( pumps and lines ) should be made of PVC, PE , Teflon or Stainless Steel.  
Do not use Aluminum, Brass or Carbon steel in contact with the neat product.

## **Handling**

As a standard precaution with all chemicals we recommend the use of protective equipment such as goggles and rubber gloves when handling chemical products.  
Consult the Material Safety Data Sheet as the only official source of Environmental and Safety information.  
The product can be stored at least 12 months from date of shipping if kept in it's original, unopened container and under normal warehouse conditions.  
Protect from freezing and from exposure to high temperatures.

## **Remarks**

TRASAR WT-2000 is available in non-returnable containers and PORTA-FEED's of different sizes.  
If you need more information on this product, please call your nearest Nalco representative.
